

DX Series - Slim Fascia Fitting Instructions

Before Removing the Fascia from Packaging - **Please Use Cotton Gloves Provided**

1. Once removing fascia from packaging locate tabs (figure 1) - this is the top of the Fascia
2. Start installation by placing the top of the fascia into the cutout at angle (figure 2)
3. Keeping the top in place push bottom of fascia into place (figure 2)
4. Once fitted fascia will fit flush against wall cladding (figure 3)

(figure 1)

(figure 2)

(figure 3)

NOTE: If you are fitting your existing fascia along with the slim fascia there will be cutouts to allow for Fascia Stud Clearance (figure 4)

(figure 4)
