

Prolonged unprotected exposure to heat may be detrimental to the appearance or long term performance of the cladding. The DS Series Extended Trim Kit is to protect the exposed edges from the direct heat from the fire.

**Linear trim**

scale 1:1

Applicable for:  
**DS1900**

**Notes:**

- DO NOT SCALE OFF THESE DRAWINGS. All dimensions are in mm.
- This detail is to assist in the installation of a **plasterboard finish** using the **Linear Trim Fascia** to the DS Series Gas Fire.
- Black fireplace reveals must be able to be removed - ensure any adhesive or compound is kept clear.
- **Do not excessively push back wall board when fixing it to the fire chassis** - use large daubs of adhesive to the appliance chassis, apply wall lining and flush finish with edge of the fire reveal.
- The Linear Trim is a friction fit to the inside of all four sides of the black reveals at the glass opening of the fire.
- This technical sheet must be read in conjunction with the Escea DS Series Installation Manual, the latest version can be found on our website at [www.escea.com](http://www.escea.com)

GENERAL CONSTRUCTION AND FINISHES SHOWN INDICATIVE ONLY
