

**Prolonged unprotected exposure to heat may be detrimental to the appearance or long term performance of a wall lining. Combustible and heat sensitive wall linings or finishes must not protrude past the trim, to the glass viewing area. Some scenarios will require the use of 22mm DS Extended Trim Kit, or a custom solution, to provide adequate protection.**

**L-Trim Detail**

scale 1:1

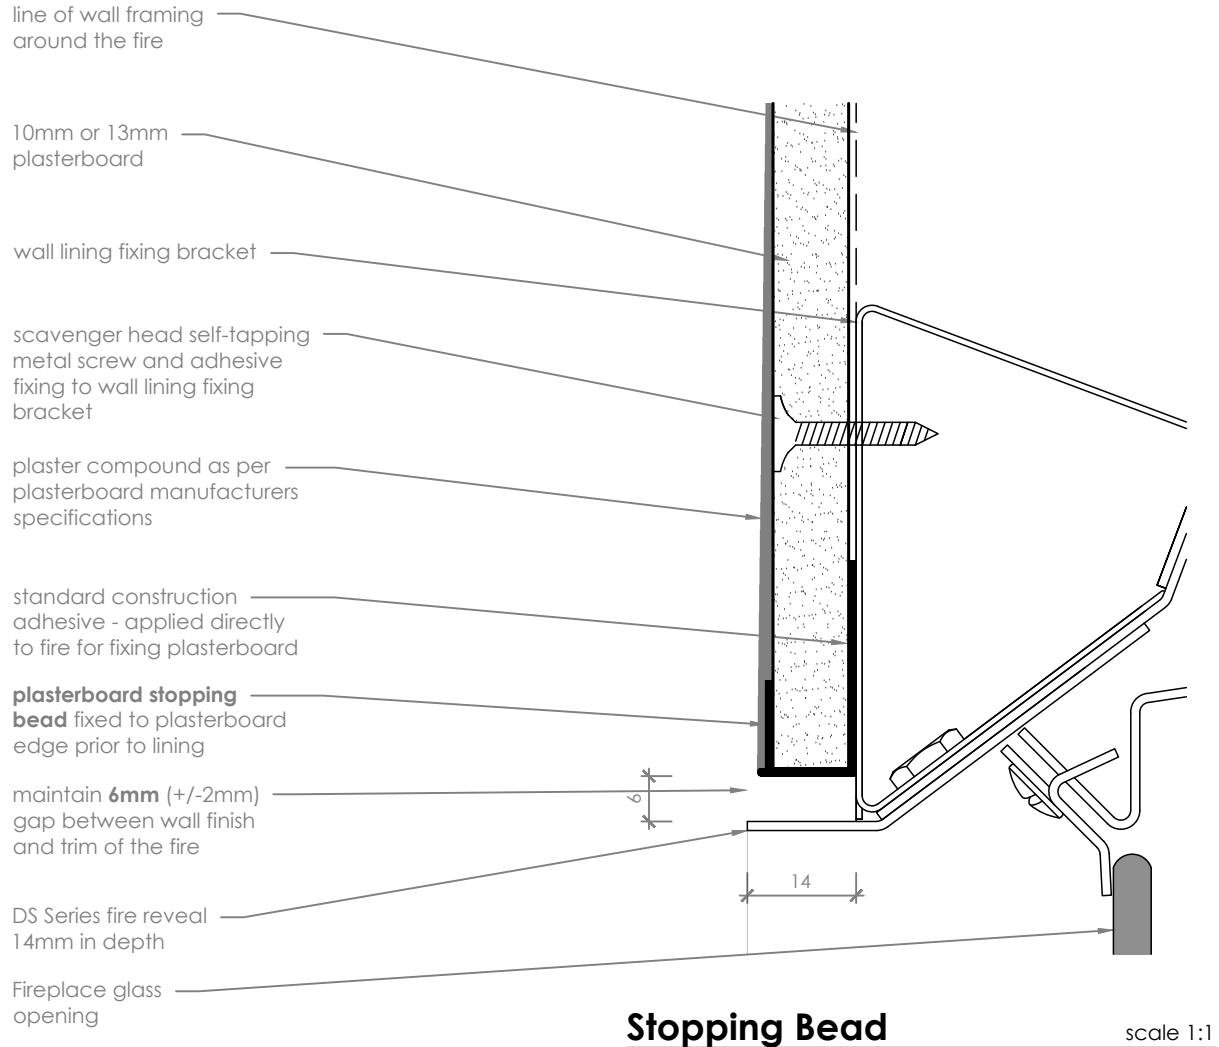

**Notes:**

- All dimensions are in mm. DO NOT SCALE OFF THESE DRAWINGS
- This detail is to assist in the installation of a **frameless finish** to a DS1150, DS1400, DS1650 or DS1900 Gas Fireplace.
- This detail is suitable for all four sides of the fireplace glass viewing area.
- Escea recommends when using these finishing methods that **10mm plasterboard** is used.
- Use care when sanding plaster to avoid scratching black fireplace reveals.
- Black fireplace reveals must be able to be removed - ensure any adhesive or compound is kept clear.
- **Do not excessively push back wall board when fixing it to the fire chassis** - use large daubs of adhesive to the appliance chassis, apply wall lining and flush finish with edge of the fire reveal.
- This technical sheet must be read in conjunction with the Escea DS Series Installation Manual, the latest version can be found on our website at [www.escea.com](http://www.escea.com).

GENERAL CONSTRUCTION AND FINISHES SHOWN INDICATIVE ONLY
