

KS Series - Frameless Finish in Tile

Prolonged unprotected exposure to heat may be detrimental to the appearance or long term performance of a wall finish. Combustible and heat sensitive wall panels or finishes must not protrude past the trim, to the glass viewing area. Some scenarios will require a custom solution, to provide further protection.

chase framework at minimum chase opening height		
3g" (10mm) fibre cement sheet substrate		
porcelain or ceramic tile ————————————————————————————————————		
wall panel fixing		
self-tapping screw (if required) and adhesive fixing to wall panel fixing bracket		
maintain min. $\frac{1}{8}$ " (3mm) gap between wall finish and fireplace trim		
KS See-through and Single Sided Models with $\frac{7}{8}$ " finish trim		
	Tile Finish	scale 1:2
Applicable for: KS55 Mesh Barrier Single Sided KS55 Mesh Barrier See-Through KS55 Class Barrier Single Sided		3000 1.2

KS55 Mesh Barrier Single Sided KS55 Mesh Barrier See-Through KS55 Glass Barrier Single Sided KS55 Glass Barrier See-Through KS75 Glass Barrier Single Sided KS75 Glass Barrier See-Through

Notes:

- DO NOT SCALE OFF THESE DRAWINGS
- This detail is to assist in the installation of a frameless finish to a KS Series Gas Fireplace.
