## **External Vertical Powerflue - Standard Detail**

## note:

- DO NOT SCALE OFF THESE DRAWINGS. All dimensions are in mm.
- The External Vertical Powerflue should be used in situations where roof access for servicing the Powerflue Fan is more suitable.
- It is advisable to secure the flexible flue to prevent movement, vibration and sagging this will also assist in maintaining the required 50mm standoff where required.
- Construction requirements including venting, moisture control and insulation shown for illustrative purposes only. Confirm specific regulatory requirements.
- The flue terminal will get very hot when in use. Precautions should be taken to protect people and animals from injury.
- This technical sheet must be read in conjunction with the relevant Escea Gas Fireplace Installation Manual, the latest version can be found on our website at **www.escea.com**.

GENERAL CONSTRUCTION AND FINISHES SHOWN INDICATIVE ONLY
